Prime Areas of Learning							
Communication and language development involves giving children opportunities to speak and							
listen in a range of situations and to develop their confidence and skills in expressing themselves.							
	Listening and attention: Children listen attentively in a range of situations. They listen						
	to stories, accurately anticipating key events, and respond to what they hear with						
ELG 01	relevant comments, questions or actions. They give their attention to what others say						
22001	and respond appropriately, while engaged in another activity.						
	<b>Understanding:</b> Children follow instructions involving several ideas or actions. They						
ELG 02	answer 'how' and 'why' questions about their experiences and in response to stories						
	or events.						
	<b>Speaking:</b> Children express themselves effectively, showing awareness of listeners'						
ELG 03	needs. They use past, present and future forms accurately when talking about events						
	that have happened or are to happen in the future. They develop their own narratives						
	and explanations by connecting ideas or events.						
Physical development involves providing opportunities for young children to be active and							
interactive, and to develop their co-ordination, control, and movement. Children must also be							
	helped to understand the importance of physical activity, and to make healthy choices in relation to						
food.							
	Moving and handling: Children show good control and co-ordination in large and small						
	movements. They move confidently in a range of ways, safely negotiating space. They						
ELG 04	handle equipment and tools effectively, including pencils for writing.						
	Health and self-care: Children know the importance for good health of physical						
ELG 05	exercise and a healthy diet, and talk about ways to keep healthy and safe. They						
	manage their own basic hygiene and personal needs successfully, including dressing						
	and going to the toilet independently.						
Personal, so	cial and emotional development involves helping children to develop a positive sense						
of themselve	s and others; to form positive relationships and develop respect for others; to develop						
social skills a	social skills and learn how to manage their feelings; to understand appropriate behaviour in groups;						
and to have confidence in their own abilities.							
	Self-confidence and self-awareness: Children are confident to try new activities, and						
ELG 06	to say why they like some activities more than others. They are confident to speak in a						
	familiar group, will talk about their ideas, and will choose the resources they need for						
	their chosen activities. They say when they do or do not need help.						
	Managing feelings and behaviour: Children talk about how they and others show						
ELG 07	feelings, talk about their own and others' behaviour, and its consequences, and know						
	that some behaviour is unacceptable. They work as part of a group or class, and						
	understand and follow rules. They adjust their behaviour to different situations, and						
	take changes of routine in their stride.						
	Making relationships: Children play cooperatively, taking turns with others. They take						
ELG 08	account of one another's ideas about how to organise their activity. They show						
	sensitivity to others' needs and feelings, and form positive relationships with adults						
	and other children.						

Specific a	reas of learning							
	elopment involves encouraging children to read and write, both through listening to							
others reading, and being encouraged to begin to read and write themselves. Children must be given								
	cess to a wide range of reading materials – for example books, poems, and other materials to							
ignite then in	ignite their interest.  Reading: Children read and understand simple sentences. They use phonic knowledge							
ELG 09	to decode regular words and read them aloud accurately. They also read some							
	common irregular words. They demonstrate an understanding when talking with							
	others about what they have read.							
ELG 10	Writing: Children use their phonic knowledge to write words in ways which match							
	their spoken sounds. They also write some irregular common words. They write simple							
	· · · · · · · · · · · · · · · · · · ·							
	sentences which can be read by themselves and others. Some words are spelt							
correctly and others are phonetically plausible.								
	s development involves providing children with opportunities to practise and improve							
	n counting numbers, calculating simple addition and subtraction problems, and to							
describe sna	pes, spaces, and measures.							
FI C 44	<b>Numbers:</b> Children count reliably with numbers from one to 20, place them in order							
ELG 11	and say which number is one more or one less than a given number. Using quantities							
	and objects, they add and subtract two single-digit numbers and count on or back to							
	find the answer. They solve problems, including doubling, halving and sharing.							
	Shape, space and measures: Children use everyday language to talk about size,							
51040	weight, capacity, position, distance, time and money to compare quantities and							
ELG 12	objects and to solve problems. They recognise, create and describe patterns. They							
	explore characteristics of everyday objects and shapes and use mathematical language							
	to describe them.							
<b>Understanding of the world</b> involves guiding children to make sense of their physical world and their								
	through opportunities to explore, observe and find out about people, places, technology							
and the envi								
	<b>People and communities:</b> Children talk about past and present events in their own							
FI C 12	lives and in the lives of family members. They know that other children do not always							
ELG 13	enjoy the same things, and are sensitive to this. They know about similarities and							
	differences between themselves and others, and among families, communities and							
	traditions.  The world: Children know about similarities and differences in relation to places,							
	i <b>the world:</b> Unligren know about similarities and differences in relation to blaces.

Tearts and design involves supporting children to explore and play with a wide edia and materials, as well as providing opportunities and encouragement for thoughts, ideas and feelings through a variety of activities in art, music, dance, role play, and design and technology.  Exploring and using media and materials: Children sing songs, make music and dance, and experiment with ways of changing them. They safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function  Being imaginative: Children use what they have learnt about media and materials in original ways, thinking about uses and purposes. They represent their own ideas,
