IN THE SPOTLIGHT

YEAR 1

Science

This week in science, we have been busy learning all about Autumn. We have been naming and describing Autumn objects, including conkers, acorns, pinecones and pumpkins. We have also been counting and comparing amounts of Autumn objects. The children have written some amazing poems using their senses.

Art

Did you know that hedgehogs, mice and squirrels hibernate? We designed our own craft animals experimenting with a variety of lines, shapes, and materials. We have used these to retell our own class story all about how these animals prepare for winter.

HOME LEARNING

You can help consolidate this learning at home too. You could visit the local park and collect some signs of Autumn, and use these to create your own crafts or stories at home. Bring them into school for us to share.
